SUMMARY

Motivated Data Science Engineering student with foundational knowledge in data analytics, front-end development, and Python programming. Passionate about learning new technologies and applying skills through projects, innovation, and continuous self-improvement.

PROJECTS

AlertDrive – Fatigue Monitoring System
Eye-Gaze Mouse Control with Jetson Nano
Voice-Based Educational Assistant
PDF-to-Audio Conversion (NVIDIA Competition)
Predictive maintenance dashboard

SKILLS

- **Python Programming**
- **Data Analytics**
- **Machine Learning (Basic)**
- **Computer Vision (Basic)**
- **Front-End Development (HTML, CSS, JavaScript)**
- **Problem Solving**
- **Project Development**
- **Libraries/Tools: NumPy (Basic), Pandas (Basic), Git, GitHub**

EDUCATION

2023 - 2025 (current)	BE at **Alvas Institute of Engineering and Technology**	(CGPA:8.5)
2021 - 2023	Class 12th Karnataka Board	(86 percent)
2021	Class 10th Karnataka Board	(76.16 percent)

EXTRA CIRCULAR ACTIVITIES

Participated in Sristi Hackathon 2024 at Acharya College of Engineering
Competed in NVIDIA Innovation Challenge – won 2nd place.
Active in AI, Embedded Systems and Robotics Clubs (college or online projects).
Regularly practice competitive programming and problem solving (LeetCode).
Attended workshops and webinars on Data Science, AI, and IoT
Participated in Technovate 2025 Hackathon
Secured Special Recognition at Sparklab Hackathon at NMIT Banglore
Attended IBM Masterclass at VIT Chennai
Participated in Prompt-a-thon at VIT Chennai
